

- Empowering Talents to Discover Tech -

Mission

Empowering Talents to Discover Tech

We envision to create 500 success stories of women in tech by 2021 via:

WHAT?

- Quality one to one mentoring sessions;
- Counseling sessions to provide expert knowledge;
- Community and content focused events;

We bring the change on the society by human centric long term mentorship program run by professionals.

We not only showcase, but also create the role models in tech.

We include men and women to work on gender equality in tech.

We work with leading tech companies in Lithuania, who commit to bringing the change together with

Women Go Tech and share their expertise providing quality content.

HOW?

Seasons

#1 and #2 so far

President of the Republic of Lithuania
Dalia Grybauskaitė
